

Specification sheet

Conceptronic Mini 3 ports USB 2.0 High Speed Hub

C3USB2

Connectivity

Connect 3 USB devices to a computer !

With this USB 2.0 3 port Hub it is possible to provide your PC, notebook or Mac with three USB 2.0 ports for connecting USB devices. The included AC/DC adapter simultaneously provides all ports with power and therefore can be used all at the same time. The power supply per port is individually predetermined by the amount of power that the connected device needs.
